

Still stuck in the slow lane?

Accelerate your biomarker programs using PS Biomarker Services™ integrated workflow with seamless transition from TMT®-enabled discovery through to TMTcalibrator™ and TMT-MRM assays for validation and routine screening

Need a biomarker assay fast?

Don't wait for an immunoassay. Save time and money through our 'MBA' program – MS Biomarker Assays offers rapid development of multiplex MS-based tests for your biomarkers in weeks, or use one of our ready made panels

Biomarker Discovery

Universal reference materials
LC-MS/MS
GeLC-MS/MS
TMT® – Isobaric Mass Tags

Assay Development

Multiple assay formats
TMTcalibrator™ – multipoint calibration standards every run
TMT-MRM – high precision, accuracy and multiplexing
MRM development with AQUA, SILAC
Immunoassay

Targeted Applications

Bespoke mass spectrometry assay manufacture
Delivery of portable assay kits
Routine MS assay service performed in ISO 9001 accredited laboratory
Specific MS assays:
➤ Neurodegeneration panel
➤ Brain damage panel
➤ Tau protein phosphorylation
➤ Bacterial virulence factors

Delivering rapid biomarker and assay solutions
